

WHAT IS CLAIMED IS:

1                   1.       A club comprising:  
2                   a club head including a club face;  
3                   a shaft coupled to the club head at a distal end of the shaft, the shaft defining a  
4 longitudinal axis, the shaft defining an obtuse angle with respect to the club head;  
5                   a grip coupled to a proximal end of the shaft, the grip comprising an elongated  
6 body that extends along a major axis corresponding to the longitudinal axis, the body  
7 including a front side and an opposing back side, the front side being substantially flat and  
8 the back side having one of a rounded or triangular shape.

1                   2.       A club in accordance with claim 1 wherein the grip further comprises a  
2 recess for receiving the shaft to thereby couple the grip to the shaft.

1                   3.       A club in accordance with claim 1 wherein the shaft projects slightly  
2 through the front side of the grip.

1                   4.       A club in accordance with claim 1 wherein the grip is integral with the  
2 shaft.

1                   5.       A club in accordance with claim 1 wherein the grip includes rounded  
2 edges.

1                   6.       A club in accordance with claim 1 wherein the grip includes sharp  
2 edges.

1                   7.       A club comprising:  
2                   a club head including a club face;  
3                   a shaft coupled to the club head at a distal end of the shaft, the shaft defining a  
4 longitudinal axis, the shaft defining an obtuse angle with respect to the club head;  
5                   a grip coupled to a proximal end of the shaft, the grip comprising an elongated  
6 body that extends along a major axis corresponding to the longitudinal axis, the body

7 including a front side and an opposing back side, the front side and back side being fairly flat  
8 such that the grip has a substantially elliptical shape.

1 8. A club in accordance with claim 7 wherein the grip further comprises a  
2 recess for receiving the shaft to thereby couple the grip to the shaft.

1 9. A club in accordance with claim 7 wherein the shaft projects slightly  
2 through the front side of the grip.

1 10. A club in accordance with claim 7 wherein the grip is integral with the  
2 shaft.

1 11. A club in accordance with claim 7 wherein the grip includes rounded  
2 edges.

1 12. A club in accordance with claim 7 wherein the grip includes sharp  
2 edges.
